

## **ACTION REQUIRED**

### **STOP PERMANENT MASK MANDATE REGULATION!!**

**March 15<sup>th</sup> at 9am**

**One Capitol Hill (Conference rooms A,  
B & C), Providence, RI 02908**

RIDOH has proposed 216-RICR-30-05-4,  
a **permanent regulation for future  
mask mandates.**

It gives the Rhode Island Department of Health the power to impose masks on our children for **ANY** infectious disease (RSV, flu, chicken pox...)! **RSVP HERE!**

#### **HOW TO STOP THE MASK MANDATE REGULATION:**

**TESTIFY AGAINST IT.** This is the **ONLY** proposed regulation in the entire country and the hearing will afford us **ONE OPPORTUNITY** to stamp it out. If we don't oppose *in large numbers*, RIDOH **WILL** approve this regulation & give itself the necessary authority to force masks on our children again. ***We MUST create a record of opposition.***

**1. ATTEND THE HEARING AND PUBLICLY COMMENT in opposition:** Plan to speak for 1-2 minutes, maximum. Bring friends and family, ***even those who don't testify or are not from RI. FILL THE ROOMS.*** **RSVP HERE !**

**2. SUBMIT WRITTEN PUBLIC COMMENT in opposition:** e-mail **Zachary.garceau@health.ri.gov.** **BCC consent4RI@hotmail.com** to ensure we retain records of submissions. Provide written testimony (it can be brief and from any state), even if you're testifying in person - we need **BOTH**.

**3. SHARE:** Call upon friends, fellow parents, family, co-workers, neighbors and anyone who can attend. **FLOOD** RIDOH with compelling testimony, **both in person and via written records.** We took masks off of our children in February of 2022 because *four hundred* of us testified against mandates. We showed up once and **MUST** do the same now!

Every one of us must do our part on March 15th if we're going to defend against mask mandates, otherwise, our children will suffer again.
